Men of Newark

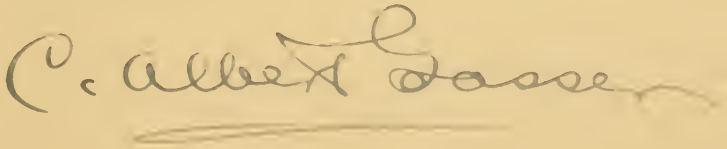
In this de Luxe edition of "Men of Newark" are reproduced the portraits of men who have aided materially in the remarkable development of a City which now numbers three hundred thousand souls. That it has been a task of considerable magnitude, none will gainsay. Many of the photographs were secured only after persuasion. A dozen men or more who should rightly have been included declared against publicity and their wishes were respected. No one has been able to buy his way into these pages, nor has any one aided in the expense of publication.



Seven-hundred and ninety-nine volumes of this de Luxe edition of "Men of Newark" have been printed and these have all been offered to subscribers This volume is No.
